

MALIBU COVE HIGH SCHOOL CURRICULUM SAMPLES

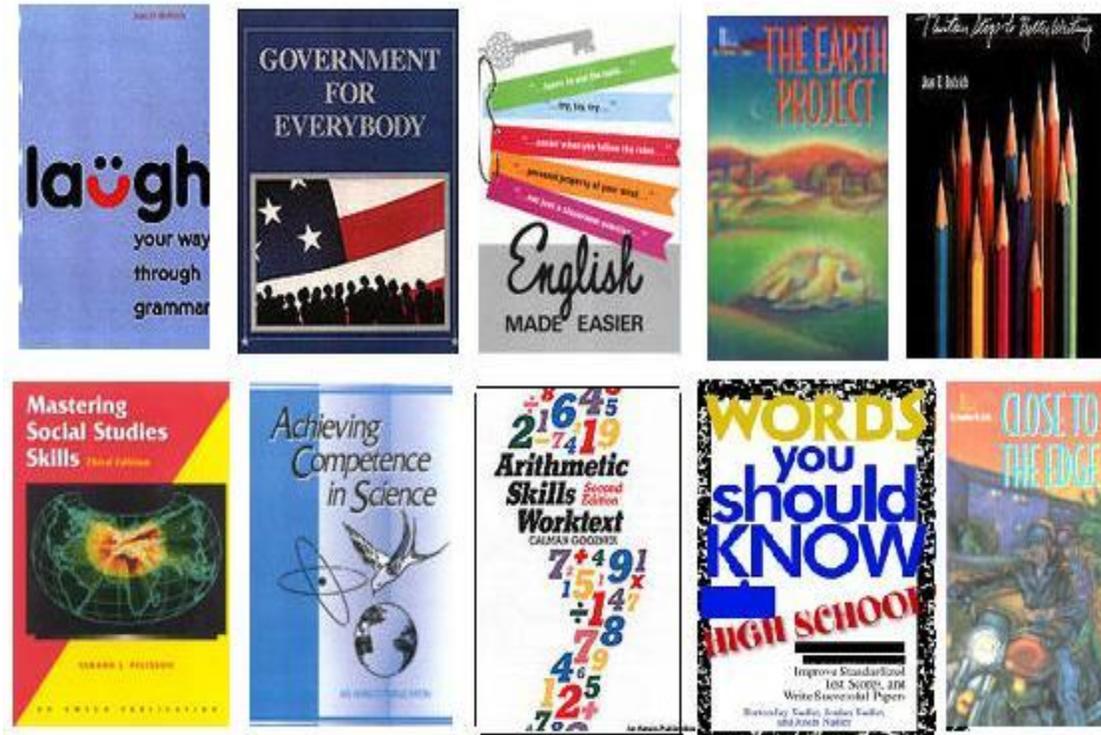

GRADES 9TH THROUGH 12TH

The MCHS high school curriculum is comprised of all required subjects for each grade level. With a myriad of curriculum options, Malibu Cove High School can help your student learn all the necessities of education and more. We teach our children how to learn because we want learning to become a lifelong experience.

Malibu Cove High offers a comprehensive text-based program for students in grades 9-12. A Recommended Daily Schedule is included with every program. With text-based courses in the core subject areas of English, Science, Math, Social Studies, and Health, students can prepare for college, complete honors-level work, or make up courses missed due to extenuating circumstances. All Malibu Cove High textbooks are carefully chosen based on the quality of their academic content, their visual appeal, and their suitability for a wide range of learning styles. Some subjects we offer are: US HISTORY, BIOLOGY, WORLD HISTORY, GENERAL SOCIAL STUDIES, BIOLOGY, PHYSICS, GENERAL SCIENCE, CHEMISTRY, CIVICS, CALCULUS, WORLD GEOPGRAPHY, ENGLISH 9-12, ENGLISH LITERATURE, WORLD LITERATURE, ENVIRONMENTAL SCIENCE, GEOMETRY, MARINE BIOLOGY, PSYCHOLOGY, RESEARCH SKILLS, PUBLIC SPEAKING, ALGEBRA PRE, I & II, HEALTH 9-12, INTRODUCTION TO OCCUPATIONS, AND MORE! If there's a subject not listed here you're interested in taking please feel free to request it and we'll let you know if we're able to include it for you, at no additional charge.

REMEDIAL PROGRAM:

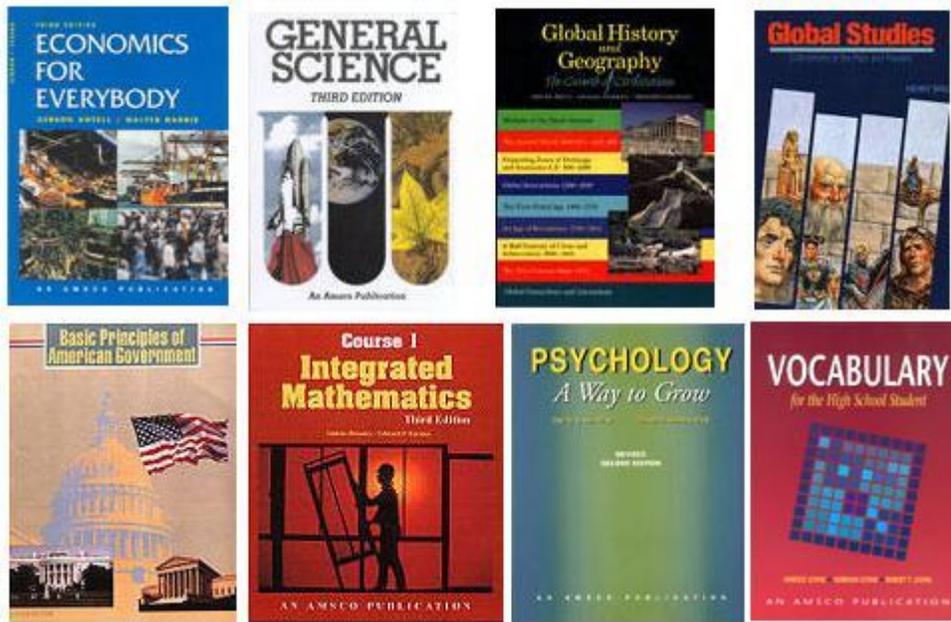

The Malibu Cove High School Remediation Program ensures you learn - and master - the skills that you need to catch up with peers. This program primarily focuses on preventing you from falling too far behind in high school when the skill gap becomes too intense. This program offers many different opportunities to supplement, support, and manage a child's learning, particularly those considered at-risk.

In addition to individualized curriculum, the pace and process of the program is also customized. An average class takes about 120 hours to finish but students work at their own pace and on their own time. Students wishing to give more time to a particular subject can take longer while those comfortable in a subject can move forward at an accelerated pace. Students and parents also have access to instructors and can email at any time with questions or concerns

Some subjects we offer in this program are:

THE EARTH PROJECT - REMEDIAL READERS, ENGLISH MADE EASIER, GOVERNMENT FOR EVERYBODY, LAUGH YOUR WAY THROUGH GRAMMAR, ARITHMETIC SKILLS, ACHIEVE COMPETENCE IN SCIENCE, MASTERING SOCIAL STUDIES SKILLS, 13 STEPS TO BETTER WRITING, CLOSE TO THE EDGE - REMEDIAL READER, REMEDIAL WORDS FOR HIGH SCHOOL - WORDS YOU SHOULD KNOW. If there's a subject not listed here you're interested in taking please feel free to request it and we'll let you know if we're able to include it for you, at no additional charge.

ACCELERATED PROGRAM

The MCHS Accelerated Program includes all required subjects that have not been previously taken. It allows students at least 16 years of age to complete all high school requirements and graduate within 9 months. The program can be completed within 6 months to one year depending on how quickly the student masters the materials and completes the assignments. An accredited High School Diploma will be conferred once all coursework is complete, all subjects passed and tuition is paid in full.

With Malibu Cove High School's Accelerated Program, students work at their own pace anytime, anywhere. They will utilize learning styles that favor workbooks and texts that have the same prescriptive opportunities by nationally standardized textbook materials. Students are assigned to an Academic Advisor who grades all completed assignments and issues progress reports throughout the program. While working through the program, access to the student's Academic Advisor is available via email five days a week, from 8:00am to 5:00pm PST.

Malibu Cove High's Accelerated program meets all the requirements set forth by the Department Of Education in all 50 states.
